Apparatus for green sand quality control

*Digital compactability testing machine
for green sand mold*

NK-CBT-V2

Features

- 1 Compactability measurement
- 2 Compressive strength measurement
- 3 Shear strength measurement
- 4 Making a sample test piece

Option

- Measurement of transverse strength
- IT supported module

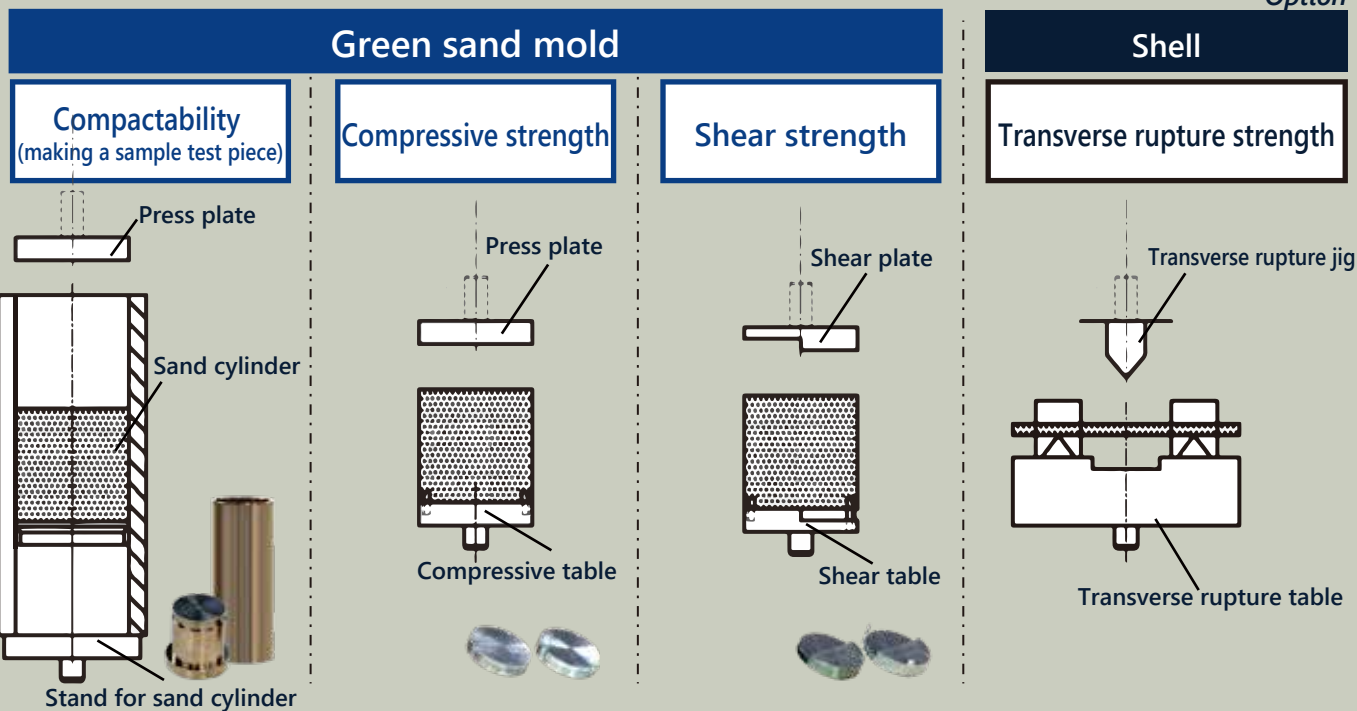

NK-CBT-V2

Digital compactability testing machine for green sand mold

Usage example

*Option

■ Specification

Name	Digital compactability testing machine for green sand mold
Model	NK-CBT-V2
Power supply	100-240V
Pressing pressure	2,000N (MAX)
Size	W400 × D230 × H810 mm
Weight	38 kg
Sand type	Green sand mold

Mode	Compactability measurement Compressive strength measurement Shear strength measurement
Accessories	Sand cylinder...1 Stand for sand cylinder...1 Jig for measuring compressive strength...1 Jig for measuring shear strength...1
option	Transverse rupture strength measurement IT supported module
